School Centred Initial Teacher Training

Assessment Only Route Partnership Agreement – 2018-19

Suffolk and Norfolk School Centred Initial Teacher Training, an accredited ITT provider, is committed to working with schools preparing Assessment Only Route candidates (AOs) to teach in schools in the counties of Suffolk and Norfolk. Suffolk and Norfolk SCITT is a partner in training for Qualified Teacher Status (QTS) via employment-based routes in both Primary and Secondary phases. The Assessment Only Route is an employment-based route so preparation for assessment takes place and is managed by the employing school.

The Partnership is governed by the Requirements for Initial Teacher Training published by the National College for Teaching and Leadership (NCTL). The following Agreement, which should be read in conjunction with the requirements, outlines the responsibility of partners for all aspects of the training, preparation and assessment of Assessment Only Route candidates (AOs).

Content and Delivery

The Suffolk and Norfolk SCITT AO Programme is an employment-based route for achieving Qualified Teacher Status (QTS) while working as a teacher in the counties of Suffolk and Norfolk or adjacent counties. The AO teacher follows an individual assessment programme leading to QTS. It is not intended for those who need a teacher training programme.

Suffolk and Norfolk SCITT welcomes applications from those who meet all the entry requirements and are working in a school which will fully support the candidate through the application and assessment process.

The period of assessment is a maximum of three months, beginning when the AO is registered with the National College of Teaching and Leadership.

Before the three-month period begins AOs must meet all entry requirements; send in their application form and have it checked for compliance; take the two professional skills tests; begin to gather a portfolio of evidence; take part in a selection process; and be accepted onto the AO Programme.

During the three-month period AOs will complete their individual preparation plan; receive a visit regarding Subject Knowledge for Teaching; be formally observed teaching on a number of occasions; receive one monitoring and support visit; complete the portfolio with evidence that they meet all the Teachers' Standards; and have their Final Assessment.

Although the AO route does not offer any specific training, some AO teachers may need to address certain professional development issues, which would have been ascertained on the Selection and Initial Needs Visit.

AOs are entitled to attend any of the weekly core training/subject knowledge sessions provided in both Suffolk and Norfolk by Suffolk and Norfolk SCITT for up to three sessions at no additional charge. The programme for these core training sessions may be found by contacting SCITTSalariedAdmin@norfolk.gov.uk or on 01603 307703. AOs must contact the SCITT Office **in advance** should they wish to attend. Additional sessions can be attended; contact the SCITT Office for details of cost.

For final assessment, the AO will present the completed portfolio of evidence demonstrating that he or she knows and meets the Teachers' Standards (including all the sub-sections and Part 2), with a complete 'portfolio evidence table' included. The portfolio must be available for scrutiny from the start of the day, and the evidence table is taken away at the end of the assessment.

The Final Assessor will also:

- observe two lessons amounting to approximately two hours of teaching (in the case of primary AOs, at least one of the lessons observed will be in a core subject; for secondary AOs the two lessons should be in different key stages)
- discuss with the School Mentor (approx 30 minutes)
- discuss with the AO (approx 60 minutes)
- examine the separate folder showing that the preparation plan was completed.

Formal Organisation and Management Of The Partnership (Including Functions Of Groups And Committees)

Programme Committee

- This group gives trainees, trainers, Headteachers and School Mentors the opportunity to feedback on the course structure, to evaluate successes and areas for development in the future.
- The minutes of this meeting are shared at the Steering Group meeting.

Steering Group

- This is a large group of representatives from strategic and school partners from across the primary and secondary programmes. It monitors the work of all programmes and helps define and develop policy and practice.
- The group has a QA and programme improvement function and discusses program developments. It makes recommendations to the Steering Group.

Strategic Board

- This group consists of senior representatives from our strategic partners (Suffolk County Council, Norfolk County Council, the University of Suffolk) as well as five Headteachers and the Executive Leader for Suffolk and Norfolk SCITT. It is the ultimate governing body of the organisation.

Quality Assurance (including improvement planning and self-evaluation)

Suffolk and Norfolk SCITT undertakes a rigorous programme of QA and self-evaluation to ensure the quality of the programme is always improving.

Before Training:

- Candidates undergo a rigorous selection procedure.
- All trainees will have passed the NCTL Professional Skills Tests before commencing training.
- All trainees will hold the relevant qualifications for entry to ITT. SCITT office staff/AO Assessors verify the original certificates.

During Training:

- School representatives attend Steering Group meetings and Programme Committees to ensure their views are represented and discussed.
- Suffolk and Norfolk SCITT Improvement plans and self-evaluation documents are shared with schools at the above meetings to ensure all partners are involved.
- Placement schools work in partnership with SCITT to ensure that the assessment of trainees against the Teachers' Standards is moderated in line with the Suffolk and Norfolk SCITT QA policy.

Criteria for Removing Schools From The Partnership Where Quality Issues Arise

AO providers should satisfy themselves that employing schools have the capacity to undertake their responsibilities. Where a school has serious weakness or is in special measures, it may still be possible to use the school, especially if the improvements to be made do not affect the subject or age range in which the candidate is being assessed. Suffolk and Norfolk SCITT would need to be confident that the candidate will not be disadvantaged by being assessed in the school and that the situation will be kept under close review.

Schools may be deselected and the assessment process terminated when it becomes apparent that the terms of the Partnership Agreement are not being fulfilled, or when an issue of concern arises in the context of an Ofsted report or other related 'quality' evidence.

For further details please refer to our Schools Going into an Ofsted Category During Training Policy.
